

**SHERWIN-WILLIAMS®**

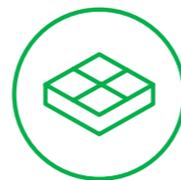

# Get more weather protection in fewer coats with **Loxon XP™** **Waterproofing Masonry Coating**

*Loxon XP™ Waterproofing Masonry Coating is a smooth, high-build coating that provides excellent flexibility, durability and weather resistance.*

### **Protection in Fewer Coats**

Requires one less coat compared to conventional masonry coatings.

### **Prolong the Life of Concrete and Masonry**

Helps keep concrete and masonry surfaces looking great by resisting damage from weathering.

### **Protect Masonry from Damp Conditions**

Seals and protects exterior aboveground masonry against wind-driven rain.

### **Finish Jobs Faster**

No need to prime. Apply directly to the concrete and cementitious surfaces.\*
