

Tips for Successful Application

Following these simple guidelines will help to ensure a successful finished project.

- 1 A clean, dry surface is important. Ordinary household detergent or mineral spirits usually do the job. Be sure to sand or scrape, if necessary, and use a primer whenever possible. Rusted, glossy or hard surfaces should be sanded to improve adhesion.
- 2 Use aerosol paints and coatings in good weather, ideally when temperatures are 55°F to 75°F, and there is 40% to 60% relative humidity. Avoid painting in direct sunlight and hot, humid weather.
- 3 When applying more than one coat of paint, be aware of recoat times stated in the directions on the can.
- 4 It's a good idea to test your paint or spraying techniques on a scrap piece before beginning your project. A smooth, even application is important.
- 5 Always begin and finish spraying off the object, using an even side-to-side motion with each pass overlapping your spray pattern by about one-third.
- 6 Take your time. Use two to three light coats instead of one thick coat.
- 7 Avoid overspray by masking exposed areas with tape or use a drop cloth.
- 8 When painting indoors, always ventilate your room well by opening windows and doors. A fan may also help to keep air circulating.
- 9 Clean spray valve after use by turning can upside down and spraying for 5 seconds. This helps prevent the spray tip from clogging before next use.
- 10 Read directions thoroughly!

2008 PRODUCT

innovationinspired

Why Krylon®?

A CLEAR COMMITMENT

Krylon® started working with artists and crafters years ago, when we introduced our first brush-on clear coating. Today we continue to design products for the special needs of all creative customers, from DIYers to crafters and artists.

#1 ON CONSUMERS' MINDS

Our customers know and trust the Krylon name. They look to us for the quality products they need for their projects and décor. And this trust has earned us the honor of being the #1 brand in the category.

THE INNOVATOR

We understand the creative mind because we are always creating — innovating. And each year we are proud to offer new and exciting products to the world of small projects.

THE PERFECT PALETTE

We are a longtime member of the Color Marketing Group, an association that helps us identify color trends in the market. So you can be confident that Krylon has the palette you are looking for.

THE RIGHT SUPPLIES FOR ANY PROJECT

From general purpose, plastic and special purpose paints to textured finishes, metallics and artist sprays, Krylon has a complete offering of products for a wide range of projects. You'll never have to look any further than the Krylon display to find what you need.

NO RUNS, NO DRIPS, NO ERRORS!™

Krylon is the perfect brand because we engineer our products to dry quickly and provide the perfect finish, without running or dripping. In fact, our Indoor/Outdoor paint dries in just 10 minutes — faster than any competitor in the market.

New packaging transition is a running change.

the **GREATEST REVOLUTION** in spray paint is here...

Introducing Krylon's **LATEST INSPIRED** innovation:

See the improvement in every area of the can.

NEW spray paint technology, design and look.

NEW CAP

- New, appealing cap shape, plus easier to open Pinch N' Pull™ cap
- Recyclable icon added to inner cap
- Substantially less plastic used each year due to redesign

ENHANCED LABEL

- All key information is now in one central position clearly visible to consumers
- Proven hierarchy of message improves shop-ability
- Consumers still recognized the new design as the Krylon® brand they know and trust

CURRENT

NEW EZ TOUCH 360° DIAL SPRAY TIP

- The ultimate in spray control
- New patented technology provides unmatched control
- Change the direction of the fan spray — horizontally, vertically or any angle in-between

- Provides the most even coverage — fan spray pattern covers 34% more area with fewer passes vs. competitive conical spray tips. Less chance for runs and drips
- Requires 48% less force to spray than the competitive "comfort" tips
- Creates less overspray than competitive conical spray tip
- Has a focused fan spray that paints like a professional spray gun

ENHANCED PRODUCT PERFORMANCE

- Enhanced dry time — now dries in 10 minutes or less — that's more than 50% faster than the competition
- Enhanced durability
- Enhanced adhesion
- Enhanced smooth finish
- More flexibility with future CARB regulations
- 25 sq. ft./can coverage vs. 15 sq. ft./can coverage with Painter's Touch® and American Accents®
- Use on metal, wood, wicker and more

NEW

NET WT. 12 OZ (340 g)

Krylon® Indoor/Outdoor Paint

- Dries in 10 minutes or less
- Excellent weatherability
- Indoor/outdoor use
- Smoothest finish
- Features the new EZ Touch 360° Dial Spray Tip

Multi-Purpose Aerosol

Krylon® Outdoor Spaces®

- Superior protection
- Prevents rust, UV color fade and weather damage
- Spray directly to metal, wood, wicker, pottery and more
- Easy to apply with Comfort Touch™ spray tip
- Coordinated color palettes

UV FABRIC PROTECTOR

Outdoor Spaces® UV Fabric Protector resists rain, moisture, spills and stains. Unlike most other fabric protectors, Outdoor Spaces UV Fabric Protector also resists fading from UV light and will extend the life of outdoor cushions, umbrellas, rugs, flags, awnings, tents and other outdoor fabrics. The Comfort Touch™ spray tip provides easy application.

Color Offering
